David Garret: „Virtuoso“ 180 g LP

Description:

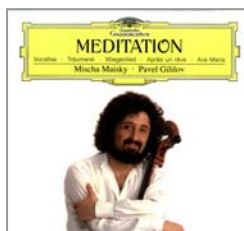

Classic

With the looks of a rock star, it would be easy to overlook the extraordinary impact that Garrett has made as a classical musician. He ranked as one of the great violinists of his generation by some of the most notable luminaries in the classical world, including the revered international conductor Zubin Mehta, pronouncing that — “David is surely going to have a resounding presence on the music world of the 21st century”.

Mischa Maisky: „Meditation“ 180 g LP

Description:

Cello

The modern aversion to such adaptations is an aberration, which musicians of the past could not have understood. To adapt his own music to other uses was the most natural thing in the world to Johann Sebastian Bach, and into the early part of the 20th century there was nothing uncommon about composers furnishing several versions of their own works for different combinations. “When the arrangement is by another person, one must always satisfy oneself that it was done with good taste”, Mischa Maisky points out, and then boldly puts his own head on the block with reference to his recital...

Description:

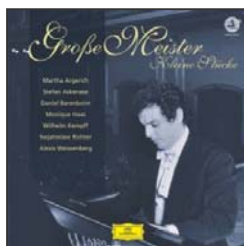

Oratorio Singer 180 g vinyl LP

Clearaudio's showcase in memoriam Fritz Wunderlich takes its final stage. After Der junge Fritz Wunderlich (The young Fritz Wunderlich) and Der Kammersänger (The Chamber Singer) it is now Fritz Wunderlich – der Oratoriensänger (Fritz Wunderlich – The Oratorio Singer) to be released. And this last album seems to be as coherent as necessary to complete the image of an exceptional artist. In short: With The Oratorio Singer a circle closes.

Description:

Piano concert music 180 g vinyl LP

The latest release by clearaudio promises once more to become another special treat: „Große Meister – Kleine Stücke“ (Great Masters – Small Pieces) is a sort of ultimate concert highlight you will never be able to listen to at a concert hall! When Martha Argerich meets Stefan Askenase, Daniel Barenboim and Monique Haas take turns at the keys, and Wilhelm Kempff, Swjatoslaw Richter and Alexis Weissenberg give another proof of their pianistic mastery, you can lean back confidently and listen to key artistry in perfection.

J.S. Bach "Christmas Oratorio" 3 x 180 g LPs

Description:

Christmas Oratorio 3 x 180 g vinyl LPs

"Jauchzet, frohlocket, auf, preiset die Tage!" – "Rejoice, exult! up, glorify the days!" – every Christmas season, this appeal is sounding thousand fold out of the throat of believing Christians all around the globe. There is scarcely any other of Johann Sebastian Bach's vocal works that is as popular as is the Christmas Oratorio. No wonder, rank his arias, recitatives and choirs such as "Bereite Dich, Zion" or "Schlafe, mein Liebster, genieße der Ruh" amongst the most beautiful and touching Bach ever composed.

Wolfgang Bernreuther "Brothers & Friends"

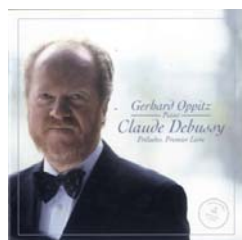

Description:

Blues 180 g vinyl LP

After their eminently respectable album "Brothers in Blues" the musical twins Wolfgang Bernreuther and Rudi Bayer follow up in cooperation with nine colleagues. The songs impressed through their three-dimensionality and dynamic. The repertoire vary from moving Boogie to deep melancholy Ballades. The songs rip directly into the heart. This album forced to hear the songs every time!

Gerhard Oppitz - Claude Debussy: Préludes, Premier Livre

Description:

Classic Piano

Gerhard Oppitz was born in Frauenau (in the Bavarian forest) in 1953. At the age of five, he began to play piano and debuted with a performance of Mozart's Piano Concerto in D. Debussy's piano music is not that either of a disciple of Liszt or of a master dependent on French academic forms; nor is it the work of a radical innovator, but of a reflective genius. Recorded by Heinz Wildhagen.

Clearaudio "Break-In Test Record" (180 g)

Description:

Break_In Record

Phono cartridges usually need a running-in period to reach their full sonic potential. This can take anything from 40 to 100 hours, depending upon the manufacturer, design and construction of the phono cartridge. This Clearaudio Cartridge "Break In" Test Record is a unique tool. One of its features is to play an endless groove cut with pink noise, which significantly reduces the length of the break-in period.

Charly Antolini – Knock Out 180 g

Description:

Drum music

Knock out" was the most discussed issue at the 1979 Berlin Radio Show. Never before had drums been recorded with such impulsive power. The six excellent fusion numbers which stay in the memory are presented in analogue and digital versions. It's still exciting today to compare the sound quality of the different recording techniques.

Wolfgang Bernreuther "Brothers & Friends"

Description:

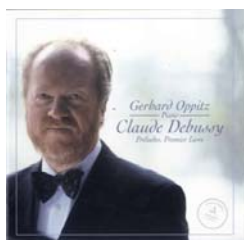

Blues

After their eminently respectable album "Brothers in Blues" the musical twins Wolfgang Bernreuther and Rudi Bayer follow up in cooperation with nine colleagues. The songs impressed through their three-dimensionality and dynamic. The repertoire vary from moving Boogie to deep melancholy Ballades. The songs rip directly into the heart. This album forced to hear the songs every time!

Gerhard Oppitz - Claude Debussy:
Préludes, Premier Livre

Description:

Classic Piano

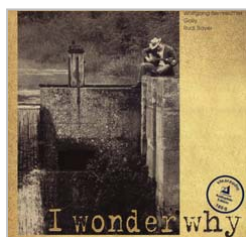

Gerhard Oppitz was born in Frauenau (in the Bavarian forest) in 1953. At the age of five, he began to play piano and debuted with a performance of Mozart's Piano Concerto in D. Debussy's piano music is not that either of a disciple of Liszt or of a master dependent on French academic forms; nor is it the work of a radical innovator, but of a reflective genius. Recorded by Heinz Wildhagen.
